GITHUB PORTFOLIO LINKEDIN

PROFESSIONAL SUMMARY

Under-Graduate B.E. student (lateral entry) with Diploma CGPA of 8.86, including 9.5 in final year. Skilled in Java, Python, and full-stack technologies (React, Node.js, Spring Boot). Strong problem-solving abilities with hands-on project and hackathon experience, seeking internship or entry-level opportunities.

EXPERIENCE

HACKATHONS (6+ PARTICIPATIONS)

Team Leader

- Built rapid prototypes under tight deadlines using modern tech stacks
- Strengthened problem-solving, teamwork, and adaptability

INTERN – TORUS SOLUTIONS (6 MONTHS)

Intern - Full Stack Developer

- Engineered and deployed scalable full-stack web applications using Java, Spring Boot, and React, enhancing system reliability by 15% across internal platforms.
- Architected high-performance RESTful APIs and optimized backend logic, resulting in a 20% reduction in average API response times and improved data processing efficiency.
- Collaborated within a cross-functional Agile team to deliver bi-weekly sprints, ensuring 100% adherence to product ion deadlines while maintaining high code quality through rigorous peer reviews.

EDUCATION

VIDYAVARDHAKA COLLEGE OF ENGINEERING

B.E **CGPA: 7.25**

PROJECTS

HEXACORE (LUMINA AI – MULTI-DIMENSIONAL INTELLIGENCE PLATFORM)

TECH STACK: ***REACT, TYPESCRIPT (VITE), NODE.JS, FIREBASE, (AUTHENTICATION, FIRESTORE, REALTIME DB), JAVA, SPRING, BOOT, PYTHON, REST, APIS, GIT***

Engineered a full-stack AI-driven platform with a modular multi-dimensional architecture integrating six core platforms: Global Study Platform (AI-powered learning, mentoring, and summarization), CodeForge / Elite Coding Arena (DSA pract ice, coding, and problem-solving), Career Launchpad (resume analysis, developer profiling, and interview preparation), PolyArguMind (dual-AI system enabling debate and collaborative reasoning for optimal answers), Professional Network (LinkedIn-like networking and profile management), and Digital Knowledge Library (centralized access to books and learning resources). Built using React, TypeScript, Node.js, and Firebase with real-time interactions, secure data handling, and a scalable architecture designed for continuous expansion.

VERITRUST UNIFIED

TECH STACK: ***REACT, SPRING BOOT, MYSQL***

Developed a web-based system to manage and verify employee background details Built RESTful APIs using Spring Boot and integrated with MySQL database Designed responsive UI using React for efficient data entry and verification Implemented secure data handling and role-based access features

SKILLS

Java, Python, Spring Boot, React, JavaScript, TypeScript, C, C++, Node.js, FireBase, SQL, PostgreSQL, MongoDB, Git, GitHub, Express

CERTIFICATIONS

- Using Python To Access Web Data — University Of Michigon
- Data Structures And Algorithms (C) — University Of Colorado Boulder
- Java Spring Boot — Infosys
- Internship Completion Certificate — Torus Solutions
