PROFESSIONAL SUMMARY

Full Stack Developer with practical experience building web applications using Java, Spring Boot, React, and REST APIs. Skilled in backend development, database management, secure authentication, and designing modular, real-time systems with AI integrations.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, SQL, C

Frameworks: Spring Boot, React, Node.js, Express.js, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Supabase

Tools: Git, GitHub, Postman, Vercel, Cloudflare, REST APIs, JWT, CI/CD

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern **Jan 2024 — April 2024**

Torus Solutions Mysore, Karnataka

- Developed full-stack application features using Java, Spring Boot, and React, supporting reliable frontend-backend integration.
- Improved REST API efficiency through backend optimization, contributing to a reported 20% reduction in response time.
- Participated in Agile development, debugging, code reviews, and performance improvements to support production-ready releases.

CORE COMPETENCIES & SOFT SKILLS

Technical Leadership • System Architecture • High-volume Production Support

EDUCATION

Vidyavardhaka College of Engineering **Aug 2024 — May 2027**

Bachelor of Engineering (B.E.) in Information Science and Engineering **(CGPA: 7.23/10)** Mysuru, Karnataka

D. Banumaiah's Polytechnic **June 2021 — April 2024**

Technical Diploma in Computer Science **(CGPA: 8.86/10)** Mysuru, Karnataka

PROJECTS

ReplyAI: Autonomous Multi-LLM Social Engagement Platform [GitHub] **Jan 2024 – Oct 2026**

Tech Stack: Next.js 15, TypeScript, React 19, Drizzle ORM, SQLite / Turso, Meta Graph API, Webhooks, Cloudflare Workers, React Native

- Engineered an AI-powered Instagram engagement platform with secure Meta webhooks, real-time text automation, and duplicate-response prevention.
- Architected a multi-LLM system integrating Groq and Gemini with intelligent failover, asynchronous message queues, and human-in-the-loop controls.

HEXACORE: AI-Powered Multi-Application Platform [GitHub] **Jan 2026/ Sep 2026**

Tech Stack: React, TypeScript, Spring Boot, Node.js, Firebase, Python

- Architected a modular AI-powered ecosystem integrating 6+ applications for real-time communication, career development, coding, networking, and intelligent collaboration.
- Built scalable React interfaces with Firebase authentication, Firestore, real-time messaging, notifications, and AI-driven automation across interconnected modules.

RELEVANT COURSEWORK

Database Management Systems • Software Engineering & OOP • Computer Networks • Machine Learning • Data Structures & Algorithms

CERTIFICATIONS

Java Spring Boot — Infosys

Title: Data Structures and Algorithms (C) — University of Colorado Boulder

Using Python to Access Web Data — University of Michigan
